 Notes: 1. Unless stated otherwise, figures include total annual throughput for all terminals in which 10% shareholdings are held. COSCO includes shareholdings of COSCO Container Lines and COSCO Pacific in excess of 10%.
 2. Figures do not include stevedoring operations.
 3. Due to the method of calculation utilized, there is some degree of variation between Drewry's figures and the terminal operators' publicly announced results. (NYK includes all handling volume regardless of its share.)
